THE indebtedness of the United States, less cash on hand November deductions and including certificates

A statement propared at the treasury department under the direction of Assistant Secretary Curtis shows that the government will realize from the new loan \$111,378,836.97, from premi-

A French submarine boat recently gers without seasickness, or, in time of | books to the Company's store. The war, to explode torpedoes under the Copper Queen company then took keels of hostile ships. It is driven by entire charge of the matter. an electric motor, has fins and other queer appliances and is entirely invisible from the surface of the waves. It is claimed that roomy passenger ships sufficient room. As a result the prescan be built on this pattern to cross the channel 45 feet under the water.

THE biggest trust over formed on the Pacific coast, and representing capital of \$50,000,000, was consummated and went into effect last week. It is the Central Lumber Company, of California, and its membership includes every lumber mill, all ship owners, wholesale vessels and retail dealers of the western coast of the United States and British Columbia The first order issued by the company was to advance the price of lumber \$2 per thousand.

THE passage by the senate of the free silver substitute for the Louse they receive fair usage and be returned bond bill was, of course, expected. The bimetallists in the senate stood bravely by their colors, and though the substitute will undoubtedly be "kiboshed" in the house, they have the satisfaction of having acted according to their con victions. Compromise is out of the question. When concessions might have been accepted none were offered, and now the gold bugs are in the mood to make concessions the bimetallists will not accept them. There is little doubt that the bimetallic cause is steadily gaining in strength, and the action of the senate in favor of free coinage is bound to have a stimulating effect upon its advocates.

The Carnegie firms, which own the only two plants in the United States for making heavy armor plate for vessels, may discover in the not distant future that it does not pay to be se greedy. That they have been greatly overchriging the government for armor plate has been made plain by the investigation of the senate committee on naval affairs. The navy department will soon open bids for making something like \$5,000,000 worth of which can bid are not much mearer result. prices paid for the same thing by European governments than they have heretofore been, the bids will be rejected and congress will be asked to pass the bill introduced by Senator Smith, of New Jersey, appropriating the money to establish a government plant to make armor plate for our vessels. In fact, that bill may be put through anyway, as it has many advo-

The Phoenix Herald has the follow ing editorial ferninet the claim of Utah for a slice of Arizona territory :-"Should Arizons lose that portion of the territory lying north of the Grand Canyon she will lose a region the importance and wealth of which is now but little understood by our citizens. While it is a fine grazing region, capable of carrying hundreds of thousands of cattle, it to also possessed of some of the richest prospects in the territory and will doubtless in time form one of our most important mining regions. It has been somewhat inaccessable to the remainder of the territory from the fact that there are at present but about three ferries across the Colorado and Grand Canyon by which that region is reached from this side, but it is a mere matter of a few years now when there will be railroad communication northward from the Needles and in fact from Yuma on the Californis and Utah sides of the C.lorado, and more than that a railroad will soon be built to the Grand Canyon and proper crossing to the north side established. The territory can not afford to lose so important a region as that part of Arizona. It is to be remembered that under the proposition of the Utah senators half the Grand Canyon territory is loss to Arisona."

BISBEE NEWS. BISBER, February 13, 1896.

THE LIBRARY. Bisbee enjoys among the mining towns of Arizona an envisble noto riety as the possessor of a large and well appointed library and reading room. To Mrs. Lewis Williams un-8 r months ...... 2 00 doubtedly belongs the honor of originating the movement through which we enjoy as fine a place of resort as may be found in the territory. As early as 1. 1895, was \$812,138'610.87. Without 1885 she began to agitate the subject and was instrumental in securing and treasury notes it was\$1,717,481,779. from Mr. Thurber of Wilbur, Thurber & Co., of New York, the first contribution of books. Mr. Thurber also donated \$100 for the parchase of new books. At this time the library was located in Ben Williams' office, and whoever wished was welcome to go there and read at his leisure. So popular did the venture prove that it was invented is intended to carry passen- soon found necessary to move the

> The appetite for reading among the miners grew apace and it was soon seen that even the store did not afford ent commodious hall and reading room was erected, which later was enlarged to a 35x60 brick veneer, making an elegant and durable structure, of which Bisbee may well be proud.

The Company then brought out Rev. J. G. Pritchard as minister and librarian. They also furnished a janitor and fuel.

The hall above is used for society meetings during the week and for religious services on the Sabbath.

The library now contains about 2000 volumes, of which 150 to 200 are out all the time. It is open from 7 a. m. to 9 p. m. every day. Books are free to all, the only requirement being that in a reasonable time.

The following periodicals are found on the tables: (Daily) S. F. Chronicle and Examiner, Phenix Gazette, Republican and Herald, Tucson Citizen and Star and Tembetone Prospector. (weeklies) S. F. Bulletin, Nation, Scientific American, St Louis Globe-Democrat, Florence Enterprise. Est-TAPH, New York World, Public Opinion, Mining and Scientific Press, Frank Leslie's Newspaper, Harper's Weenly, Puck, Judge, Life, Oasie, El Paso Herald and Hlustrated News o, the World, (Magazines) Century Arena, Scribner's, Lippincett's, Nineteenth Century, North American Review, Harper's Monthly, Forum Popular Science Monthly, Atlantic Monthly the Outing. (Trade Journals) Engineering and Mining Journal, Railroad Gazette, Iron Age, Artisan and

the Financial and Mining Review. (Foreign) Gamla Och Ny a Hemlandet Courier Des Etats Unie, Norden and Skandinaven.

With such opportunities for mental growth at hand the young men and wemen of Bisbee ought to go forth exceptionally well qualified for the duties armor plate, and if the prices submit- of life and it is the earnest hope of ted by the only two establishments the management that such will be the COPPERINGS.

> Mrs. G. A. Metcalf and children left this morning for Santa Barbara, Califernia, where they will make their future home.

Mise Maggie Dougherty left on this nia, where she will enter school. Her many friends here regret to loose her but wish her the best of success in her rchool work.

Don't fail to take in the performance given by the Payton Comedy Company tonight. The company come well recommended and should have a good house.
